

BOISE PRESBYTERIAN CHURCH COVID PRECAUTIONS

(Last updated: October 26, 2021)

In light of the current high levels of covid transmission within our community, and keeping in step with [the City of Boise](#) and [CDC recommendations](#), here are the precautions we are taking as a church in order to care for one another and for our community:

- **Masks required** for everyone over the age of 2, regardless of vaccination status. This applies to Sunday Worship, and any other indoor Boise Pres gatherings.
- We are hosting **two worship services** in order to allow for more physical distancing (9:00 and 10:30am).
- **Children and youth ministries** are mirroring [the Boise School District's covid protocol](#).
- We are not currently providing **nursery care**, although the nursery space is available for parents to use, if desired. Audio from the service is streamed to the nursery so that parents can listen in.

THANK YOU for your love and support for our church and our community throughout this ongoing pandemic – it is a very real ministry to each of us and to our neighbors, as we embody the self-giving love of Christ.
